PRAYAGA
ENGINEERING CONSTRUCTORS

Our Vision

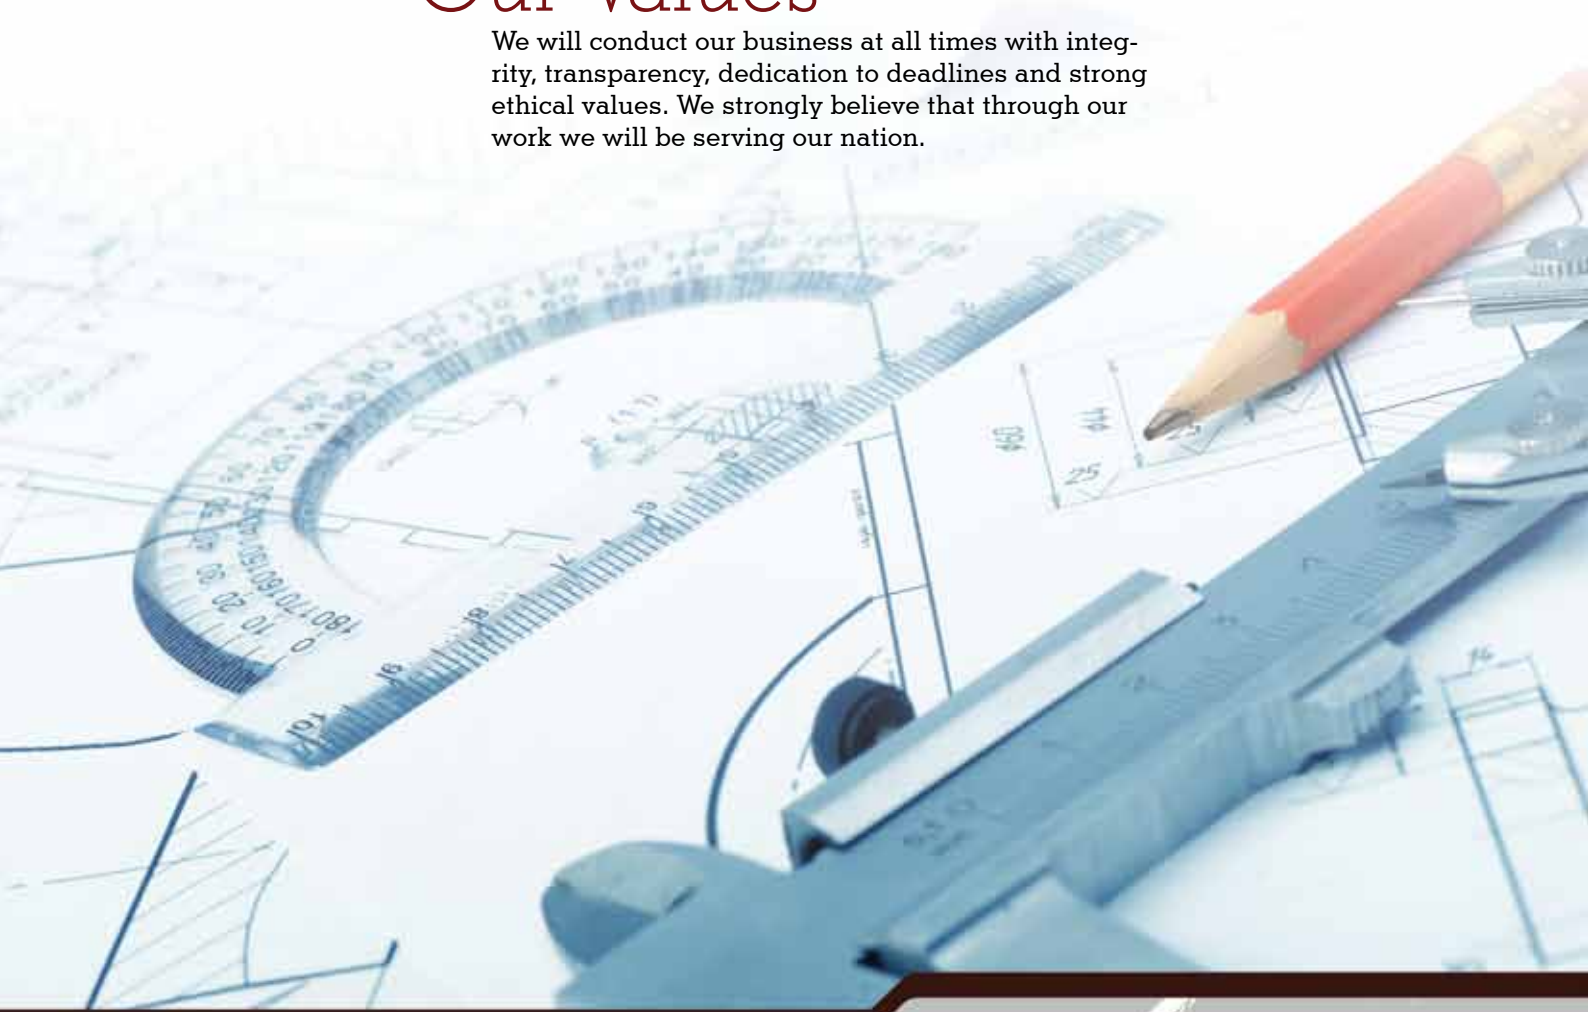

To achieve a sustainable level of excellence in Service, Quality and Safety by taking care of the environment.

Our Mission

To manage the company on a sound and professional financial basis and to achieve the best in class return on investments.

Our Values

We will conduct our business at all times with integrity, transparency, dedication to deadlines and strong ethical values. We strongly believe that through our work we will be serving our nation.

Who we are:

Who we are:

Prayaga Engineering Constructions, the brainchild of our founding partner Mr. V B Mukundan, is driven by core values of integrity, commitment and loyalty to customers.

From humble beginnings, the company started operations under the name of 'Mukundan Engineering Contractors' on 1986. Since then, over these years the

company had a phenomenal growth fuelled by the dynamic leadership of its founding Partner, Mr. V B Mukundan, coupled with the workmanship and quality of our project executions.

We have renamed the enterprise as Prayaga Engineering Constructions to reflect the diversity of our work culture. Today this entity is renowned for its Quality, Consistency and adherence to deadlines in the field of engineering projects within the nation.

Through sheer hard work and consistent quality we have acquired a name and a status that is unique amongst the top engineering construction companies of Kerala. Today, Prayaga Engineering Constructions is one of the most respected and renowned business entities in the engineering construction market.

At Prayaga Engineering Constructions, we believe that there is no better proof of our commitment to service than a finished project which demonstrates the integrity of its builder. The numerous projects

we have undertaken and executed is our abiding testimony and our hallmark.

What we do for a living is not an especially unique work, but what makes us stand out is our unique work philosophy.

PRAYAGA
ENGINEERING CONSTRUCTORS

Our core area:

Our core area:

Prayaga Engineering Constructions is a leading engineering and construction company in the Indian industrial sector. We have been providing quality engineering and construction services for our different clients since the year 1986. We have successfully executed many critical projects including construction of plants, shutdown and maintenance jobs for refineries, petrochemical plants, fertilizer plants, and oil & gas industries within the stipulated time. Our strength lies in a team of highly qualified, professional & experienced managers, engineers, technical and non-technical staff. Who are in turn well equipped with sufficient engineering hardware and a technologically enabled back-office.

Our past 28 years in the field of engineering construction and allied works was spent in executing various complex engineering jobs involving fabrication & erection of heavy equipments, pipe lines, structural design, supply and commissioning of fire-fighting systems etc.

Our core competency:

Prayaga Engineering Constructions an IBR approved contractor is a highly technologically skilled vendor capable of executing complex, time sensitive projects in the following areas:

Welding procedures as per requirements.

We undertake heater, boiler & steam related works that are coming under the ambit of the Board of Factories and Boilers of Kerala State.

Works related to Fire-fighting system is one area of our specialization.

We are using internally cement coated pipes and fittings for fabrication. Internal cement lining of pipes and fittings are fabricated using our own machineries.

We provide sufficient construction equipments, tools, tackles and manpower.

We are financially sound, and undertake any type of construction

Our core areas:

jobs with a capital outlay to the extent of 20 crore per project.

We offer our customers cost effective, technologically viable solutions' which span our entire range of service offerings.

We do Erection & Repairing of Heavy Boilers and Heat Exchangers at BPCL-KR, HOC Ltd.

We are approved Grade-1 Boiler Contractor & certified by the Department of Factories and Boilers of Kerala Government.

Undertaken mechanical and civil works including Fabrication and Erection of Chimney Stacks up to 80 Meters.

Heavy heat exchangers & vessels.

Fire Fighting Systems.

Fabrication and Erection of Structurals.

SS, AS, MS and CS Piping.

Reactor and Re-generator Cyclone Repairing.

Argon Arc Welding Works.

Erection of Oil Separation systems.

Fabrication and Erection of Cooling Water Piping Systems.

Mechanical Jobs in Heater Modules.

Convection Coils.

Mechanical IBR and CBD Piping Works.

Piping for Providing Plant Fuel Heater in Co Boiler.

Piping for DLP Stream.

Replacement of Fire Water Lines, especially inside cement lining of piping.

We have been consistently executing projects on a turn key basis for our clients on a pan India basis. Where quality of materials, workmanship, timely execution & client satisfaction becomes a matter of pride.
